

ABCastlehire Risk Assessment – Gladiator Dual

Hazard Area	Risk	Existing Controls	Likelihood 1 - 5	Severity 1 - 5	Risk Score L x S	Further Action to take
Gladiator Dual	Users falling from podium during activity	Ensure inflatable bed is fully inflated and covers entire fall off area and that no persons or objects are left in the landing area.	2	1	1	Adult supervision required at all times.
Gladiator Dual	Users getting hurt from blows by other participant	Ensure all users wear safety equipment provided at all times.	5	1	5	Adult supervision required at all times.
Gladiator Dual	Falling from inflatable bed	Safety mats placed by and around entrance/exit. No fighting permitted off the podiums. No more than 2 persons on inflatable at one time.	5	1	5	Only the two participants that are duelling are permitted to enter the duelling area at any one time. Adult supervision required at all times.
Gladiator Dual	Over enthusiastic participants	Responsible person supervising at all times. Rocking from side to side is NOT PERMITTED UNDER ANY CIRCUMSTANCES.	2	1	2	In the event of large numbers of participants trained operators will be supplied with the inflatable to aid with large numbers. Adult supervision required at all times.
Gladiator Dual	Danger of unnecessary injury.	Ensure that no one with a history of back or neck problems or who suffers from a heart complaint uses the Inflatable or anyone who is feeling unwell or suffering the effects of alcohol or drugs & Pregnant women may NOT use any equipment at anytime.	1	5	5	Adult supervision required at all times.
Gladiator Dual	Overloading or Tipping over.	No user weighing over 90kg or 14 stone is permitted to use the equipment at any time.	1	5	5	Adult supervision required at all times.
Gladiator Dual	Larger participants injuring smaller participants	Responsible person supervising at all times. Keep contestants of similar size and weight (no adults versus children allowed)	1	1	1	Participants put in to groups of similar size. Adult supervision required at all times.
Gladiator Dual	Adverse weather conditions.	Item will be switched off in strong winds deemed a health and safety risk above 24mph and not used in wet weather.	Dependant on weather	Dependant on weather	Dependant on weather	Adult supervision required at all times. Wind speed detectors available. See website health & safety section for beaufort scale
Gladiator Dual	Danger of injury from hard surfaces.	The inflatable must never be mounted unless the inflatable bed is fully inflated whether the inflatable is in operation or not as this can lead to serious injury.	1	4	4	Adult supervision required at all times.
Gladiator Dual	Injury through lack of supervision.	A responsible person must be present at all times, in the event that the operator is not in view Do Not enter the any circumstances.	1	5	5	Adult supervision required at all times.
Gladiator Dual	Tripping over anchorage points, spare equipment, electrical cables	Anchor points used as per manufacturers instructions and spare equipment erected safely or stowed away. Where possible electrical cable does not cross any public pathway.	1	1	1	In the event of large numbers of participants attending or large events, additional safety fencing is erected, electrical cables will be erected overhead or covered. Adult supervision required at all times.
Gladiator Dual	Injury through incorrect positioning.	Do not move or try to reposition the inflatable under any circumstances and ensure that the anchors are in place at all times.	1	2	2	Adult supervision required at all times.
Gladiator Dual	Petrol Blower, Generator Risk of fire	Blowers/generators filled with fuel before delivery, units are fire retardant.	3	1	3	All spare fuel is stored in suitable marked container, and in a safe location, units switched off during re fuelling. Adult supervision required at all times.
Gladiator Dual	Choking	No food drinks or chewing gum to be allowed on or near the Inflatable.	1	4	4	Adult supervision required at all times.
Gladiator Dual	Injury through 3 rd party items & 3 rd part bodies.	All shoes, glasses, jewellery, badges MUST be removed before using this Inflatable. Always ensure that the area surrounding the Inflatable is not overcrowded.	1	5	5	Adult supervision required at all times.
Gladiator Dual	Danger of fire.	No smoking or barbecues near the Inflatable at any time.	1	5	5	Adult supervision required at all times.
Gladiator Dual	Danger of falling from height.	Climbing, hanging or sitting on walls is DANGEROUS and must not be allowed at any time, All our beds have low walls for supervision purposes, this rule is exceptionally important when the inflatable is erected on hard surfaces.	1	3	3	Adult supervision required at all times.
Gladiator Dual	Emergency	In the event that someone is seriously injured, DO NOT move the individual, leave the inflatable switched on and dial 999 immediately.	1	5	5	Adult supervision required at all times.
Gladiator Dual	Injury through lack of inflatable pressure or suffocation.	Do not allow anyone to be on the Inflatable during inflation or deflation as this can be EXTREMELY DANGEROUS.	1	2	2	Adult supervision required at all times.
Gladiator Dual	Injury through bouncing of the inflatable.	Ensure that an area of 6 feet (2 meters) around the unit is completely clear and ensure the area in which the castle is to be erected is completely swept of debris, before our arrival if possible.	1	3	3	Adult supervision required at all times.

L=Likelihood S=Severity L*S= Risk 1=Low 5=High

Risk is worked out using numbers 1 - 5. The likelihood is given a number and this is multiplied by the number given to the severity of the risk.

The result = the risk factor. This generic risk assessment is brief and we have our own individual assessments for each individual risk, 25 being the worst possible outcome, any item reaching 25 would give serious cause for concern & we would not be able to erect the unit. It is recommended that clients undertake their own risk assessment to suit their requirements.
